

### Key Features

- + 5 Gigabit Ethernet ports with up to 1,000 Mbps wired speed
- + Plug-n-play – no configuration necessary
- + Compact design to fit on virtually any home entertainment center
- + Ideal for expanding a family’s home entertainment options

## 5-Port Gigabit Switch

Faster Streaming & Gaming

Attaching home entertainment devices to expand a family’s entertainment options.

The EnGenius EGS1005 is 5-Port Gigabit Switch for families that need to attach additional home entertainment devices (game consoles, DVRs, HDTVs, Blu-ray players, and set top boxes) to their home’s router. Once connected to the router via the EGS1005, these devices can access the family’s Internet connection and access subscription-based entertainment services.

For AV enthusiasts, the EGS1005 is an ideal and cost-effective way to quickly expand the number of entertainment devices in a home theater that have access to one another or the family’s Internet connection available from a gateway or home router. For gamers, the switch’s outrageously fast wired speed (up to 1,000 Mbps) eliminates lag and makes multi-player gaming more fun and intense.

#### Plug-n-Play

The EGS1005 Gigabit Switch is a plug-n-play device that requires no installation apart from plugging it into a power source and connecting other Ethernet-enabled devices to it with Ethernet cable. Once the EGS1005 is connected to a router and other devices are connected it, the devices are all part of the home network and ready to share media content with other devices and access subscription-based services.

#### Gigabit Wired Speed

Gigabit Ethernet ports for 10x faster throughput than Fast Ethernet making large file transfers, HD video and other media streaming incredibly fast.

#### Physical Interface

- 1. Port LED Indicators
- 2. Power Connector
- 3. LAN Ports
- 4. Power LED

## Technical Specifications

### Device Interface

5x Gigabit LAN Ports

### IEEE Standards

IEEE 802.3i/u/ab  
IEEE 802.3x flow control  
IEEE802.1p QoS

### Specification

Auto MDI/MDIX cross over for all ports  
Secure store-and-forward switching scheme  
Supports 9KBytes Jumbo frames  
Supports H/W IGMPv1/v2 and MLDv1 Snooping  
Supports Loopback Detection

### LED Indicator

Port 1  
Port 2  
Port 3  
Port 4  
Port 5  
Power

### Package Contents

1x EGS1005  
1x Power Adapter (5V, 1A)  
1x Quick Start Guide

### Power Specification

External Power Adapter  
DC IN, 5V, 1A

### Certification

FCC/CE/IC

### Physical/Environmental Condition

#### Temperature Range

Operating: 32° to 104°F (0° to 40°C)  
Storage: -4° to 140°F (-20°- 60°C)

#### Humidity (non-condensing)

Operating: 90% or less  
Storage: 95% or less

#### EGS1005 Device

Diameter: 6.36"  
Height: 1.64"

#### Packaging

Width: 2.8"  
Length: 12.2"  
Height: 9.2"

### Warranty

1 Year Limited Warranty
